

HAZARDOUS WASTE MANAGEMENT PERMIT REISSUED TO METALICO, INC.

The Tennessee Department of Environment and Conservation (TDEC) Division of Solid Waste Management (DSWM) has reissued a hazardous waste management permit to Metalico, Inc., the facility owner and operator of General Smelting and Refining, Inc. (GSR). GSR (EPA ID TND004048690) is located in Williamson County at 8444 Horton Highway, College Grove, TN 37046. DSWM finalized the permit decision following a 45-day public comment period which ended on September 11, 2017. A [Response to Comments](#) has been issued to address a few minor corrections made by the DSWM to finalize the draft. No public comments were received.

The hazardous waste post-closure permit (TNHW-172, formerly TNHW-115) allows Metalico to continue monitoring and maintaining two hazardous waste landfills. It allows Metalico to terminate groundwater monitoring and begin monitoring the Harpeth River. The permit allows the continued maintenance and monitoring of the solid waste management units (SWMUs) and areas of concern (AOCs). The permit also contains provisions requiring any newly discovered releases at the facility to be investigated and remediated.

The permit is effective as of September 15, 2017 and shall remain in effect until September 15, 2027, unless continued, revoked and reissued, or terminated under applicable regulations. The permit is issued under Tennessee Code Annotated, Section 68-212-101 et seq., and Tennessee Rule Chapter 0400-12-01, Hazardous Waste Management

Electronic copies of the permit, including the [Response to Comments](#) document, are available online at <https://go.usa.gov/xNtGa> and at the DSWM Central Office on the 14th Floor of the Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243 (615-532-0780). Paper copies are available for review at the College Grove Public Library, 8607 Horton Highway, College Grove, TN 37046 (615-368-3222) and at the TDEC Nashville Environmental Field Office, 711 R.S. Gass Blvd, Nashville, TN 37216 (615-687-7000).
